Women, Baramulla**

**Executive Summary**

Teaching and Learning has changed in the 21<sup>st</sup> century. Various Universities (Both Private and Govt.) have started developing online courses. Private institutions are also offering online courses. We are into an era where students are using the e-learning tools more than the printed textual material. The worldwide e learning industry is growing at a faster rate.

Open Universities in the last more than 20 years have moved from print material to web-based courses for delivery of instruction. With the emergence of new technologies, the universities have to move fast and keep the pace with the rest of the world.

Online Learning is mainly the transfer of skills and knowledge through computer. The content is delivered via Internet or audio/video

Keeping in View the Technological advancement, the teachers should be prepared to meet the challenges of the future. In this connection, Govt. Degree College for Women, Baramulla is Organizing a week-long workshop/ Faculty Development Program on the Use of ICT and Using the LMS to in the teaching learning process.
